

Bay of Quinte Invitational - 2019**Updated - May 11th, 2019**

Thank you to everyone for their patience at our meet today. The weather did not want to co-operate. Hopefully that will mean good weather for all the rest of everyone's championships!

Full results are posted below. Unfortunately, the photo timing equipment did not agree with the weather so no track records will stand from the meet today. I ended up do a manual start with the gun which corresponds to hand timing.

Special thanks to all the officials for braving the wind, rain and cold to help us run another successful meet. As usual, the hurdle crew went above and beyond to try to keep the meet reasonably on time. Good luck with your meets this year and we look forward to seeing you again next year - Friday, May 8th, 2020

Thank you - Brian, Anne and Pat
